PROFESSIONAL SUMMARY

B.Tech Computer Science (AI & ML) student with strong interest in backend engineering, scalable systems, and full-stack development. Experienced in designing RESTful APIs, database-driven applications, and modular software architectures using Flask, Express.js, React, and SQL/NoSQL databases. Passionate about system design, authentication workflows, performance optimization, and building reliable real-world applications.

EDUCATION

Acropolis Institute of Technology & Research

B.Tech in Computer Science (AI & ML)

Sep 2024 – Aug 2028

Indore, India

I.L.V.A. H.S. School

Class XII

Jul 2023 – May 2024

Indore, India

EXPERIENCE

Exrnxt Labs Pvt. Ltd.

Unity Developer Intern

Nov 2025 – Dec 2025

Indore, India

- Developed interactive modules and application features using Unity and C#.
- Implemented UI systems and improved user interaction workflows.
- Optimized scene performance through efficient asset and memory management.
- Debugged and resolved runtime issues to improve application stability.

PROJECTS

TaskZen – Full Stack Task Management Application

- Developed a full-stack task management application with complete CRUD functionality using the MERN stack.
- Implemented real-time search, filtering, sorting, dashboard statistics, reusable React components, custom hooks, and a responsive user interface.
- Designed RESTful APIs using Express.js with a layered architecture (Routes, Controllers, Services, Models) and integrated the frontend with a MongoDB-backed backend.
- **Tech Stack:** React.js, Vite, Tailwind CSS, Node.js, Express.js, MongoDB, Mongoose
- **Links:** [Live Demo](#) — [Frontend](#) — [Backend](#)

MiniSend – A Local Network File Sharing Platform

- Developed a web-based file sharing platform inspired by LocalSend, enabling seamless file transfers between devices connected to the same Wi-Fi network.
- Implemented real-time device discovery and peer-to-peer communication using Socket.IO with a modular Express.js backend.
- **Tech Stack:** Node.js, Express.js, Socket.IO, HTML, CSS, JavaScript
- **Links:** [Live Demo](#) — [GitHub](#)

Pixgram – Full Stack Social Media Platform

- Developing a full-stack social media platform featuring user authentication, post creation, likes, comments, follow system, notifications, and user search.
- Implemented secure JWT-based authentication and authorization with protected routes and session management.
- Designed RESTful APIs and modular MongoDB schemas to support scalable social interaction features.
- Integrated Firebase Storage for efficient media uploads and management.
- **Tech Stack:** React.js, Node.js, Express.js, MongoDB, JWT, Firebase
- GitHub: [Frontend](#) — [Backend](#)

TECHNICAL SKILLS

Languages: JavaScript, Python, Java, C++,

Frameworks & Libraries: React, Tailwind CSS, Node.js, Express.js, Flask

Databases: MongoDB, MySQL

Core CS: Data Structures & Algorithms, Object-Oriented Programming, DBMS (Basics), RESTful API Design, Authentication Workflows

Tools: Git, Postman, Version Control

Game Development: Unity3D

ACHIEVEMENTS & LEADERSHIP

- Technical Lead, AI Nexus Club, Acropolis Institute of Technology & Research.
- Organized IntelliAI Arena 2026, an AI-focused hackathon with 120+ participants.
- Participated in Smart India Hackathon (SIH) 2025, contributing to the development of an AI-based cattle breed recognition system.

LANGUAGES

English (Proficient), Hindi (Fluent), Marathi (Native)
